## **REASONS FOR ALLOWANCE**

### ***Response to Amendment***

Regarding the preliminary amendment dated 4/7/06, on the amended sheet 15, it appears that a line 1 of claim 3 was inadvertently deleted. Claim 3 is treated as being the same as originally filed.

### ***Allowable Subject Matter***

Claims 1-8 and 10-17 are allowed. The following is an examiner's statement of reasons for allowance: regarding claims 1 and 10, the prior art does not suggest the connector as claimed, including the combination of all the claimed elements, the combination including some of the terminals comprising contact terminals having flexible contact arms engageable by the first cam surface of the cam portion of the actuator to bias the contact arms into engagement with the flat circuit and some of the terminals comprising pivot/cam terminals having pivot means to mount the actuator for pivotal movement between said open and closed positions, and a cam surface for engaging the second cam surface of the cam portion of the actuator to provide a back-up for the cam portion as the first cam surface of the cam portion biases the flexible contact arms as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
